8.1 Registration part 1 - Create an account

Firstly you need to create an account with Vident and register your tool. This can be done through the update software iScanzilla or through our website.
1. Just select your tool from the list on the Vident > Support&Service > Update Client (http://www.videnttech.com/support/) page and follow the instructions to download the latest version of iScanzilla.
Alternatively, you could download the update client from http://www.videnttech.com/product/ It's right under the download tab of individual product page.

2. The file downloaded will be a compressed zip file. Open that file and run the installer inside it.
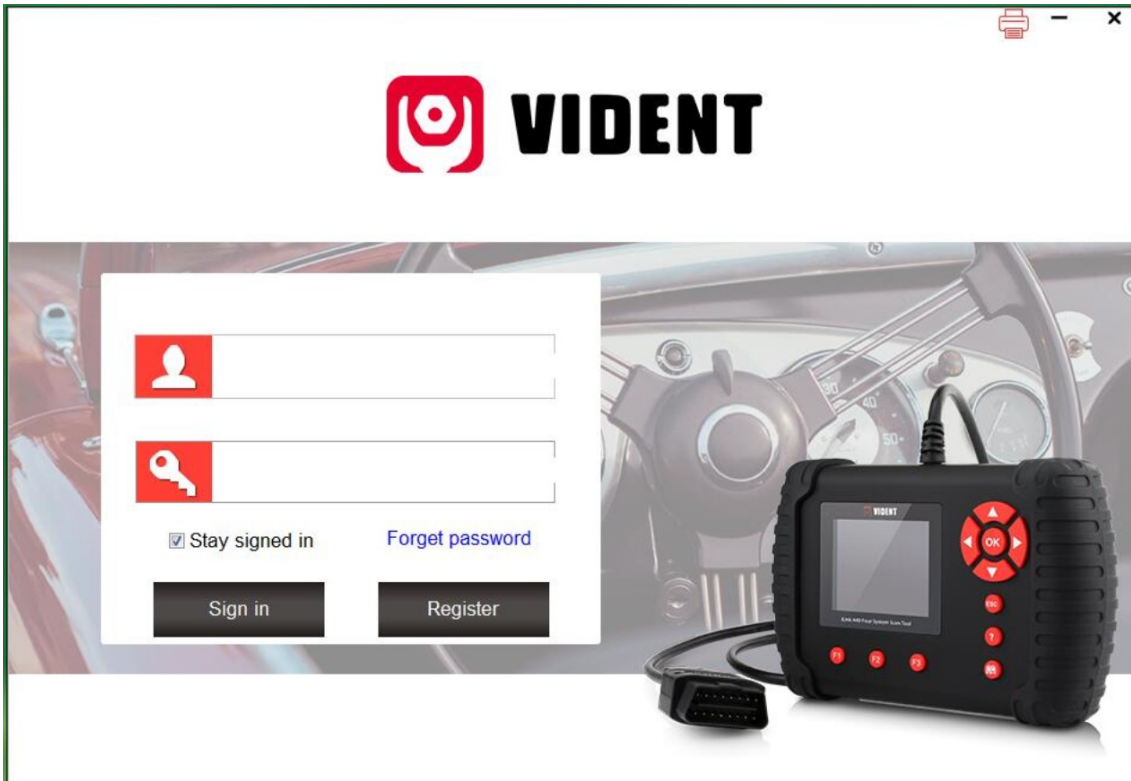

Please note: The installer will sometimes try to install iScanzilla to the D:\ drive. In most cases you will need to change this to C:\

3. Once installed, open the iScanzilla software, click the Register button and complete the registration form to create your user account.

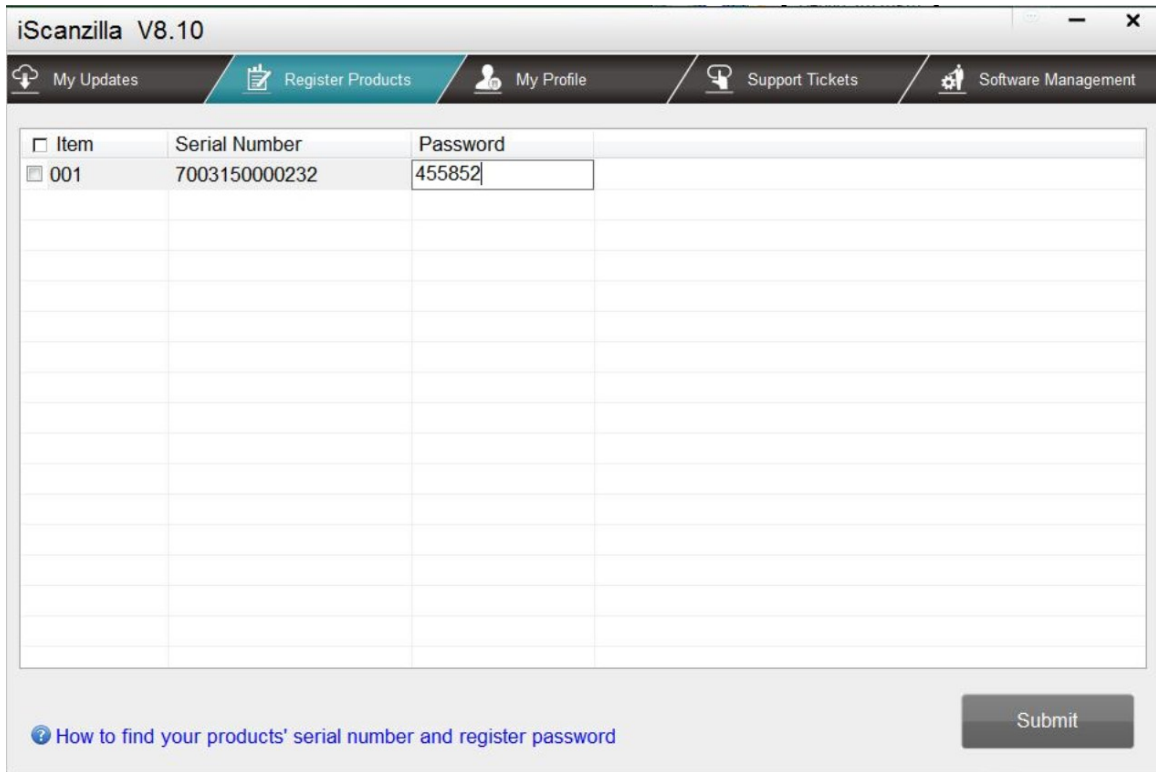

Alternatively, you can click the Sign Up button on the right upper side of our website to create an user account.

8.2 Registration part 2 - Add your tool to the account

To register the tool, you will need the tool's Serial Number and 'Register Password'. You can find these on the tool by selecting Setup > About.

VIDENT
www.videnttech.com

Product Serial Number
7000315001361
Register password:0016b3
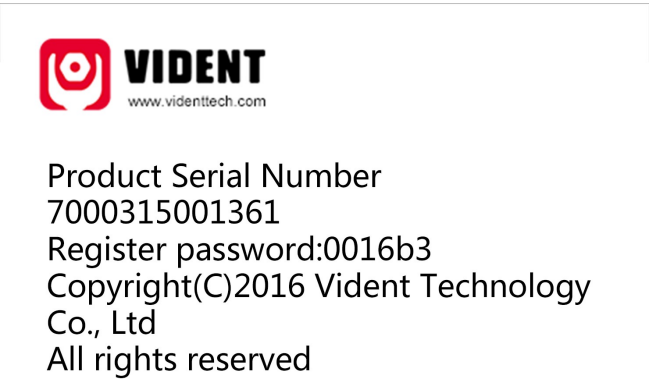

1. When logged into iScanzilla, click the 'Register Products' icon.

iScanzilla V8.10

| My Updates | Register Products | My Profile | Support Tickets | Software Management |

☐ Item	Serial Number	Password		
☐ 001	7003150000232	455852		

How to find your products' serial number and register password

Submit

2. On the 'S/N Registration' tab, put a tick in the box marked '001' then enter the product's serial number and password, and click Submit.

3. A confirmation box should be shown confirming successful registration.

Alternatively, you can register the product in the member center when logged in on our website.

8.3 Updating your tool

1. Now close the iScanzilla software, remove the TF card from your tool (making sure the tool is turned off first!) and connect it to the PC via a TF card reader.
2. Once Windows has detected the TF card, run the iScanzilla software and login again. After a few seconds, a list of the available software updates will appear.
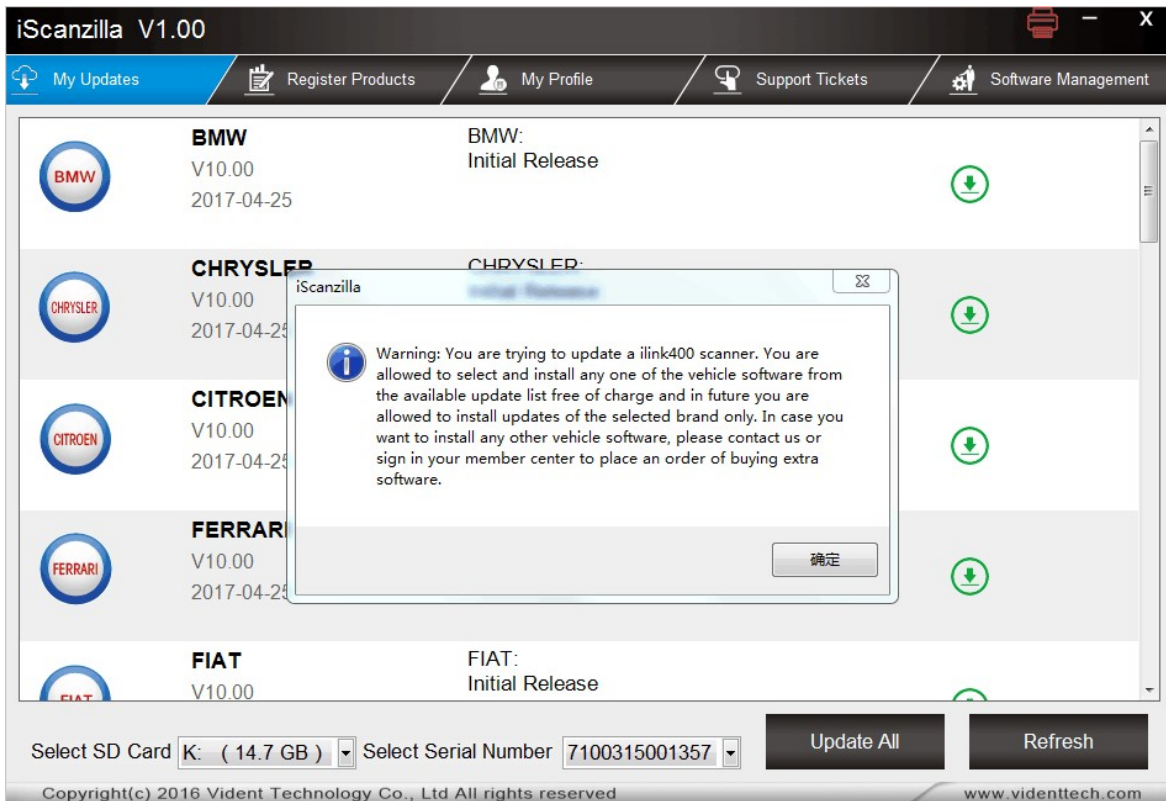

Please select the software you want to update, as you can ONLY have access to the update of this brand in the future once it's been selected initially. In case you want to install any other vehicle software, please contact us or sign in your member center to purchase. Please refer to next chapter to buy extra software.

3. Click the Update button to download and install the software.
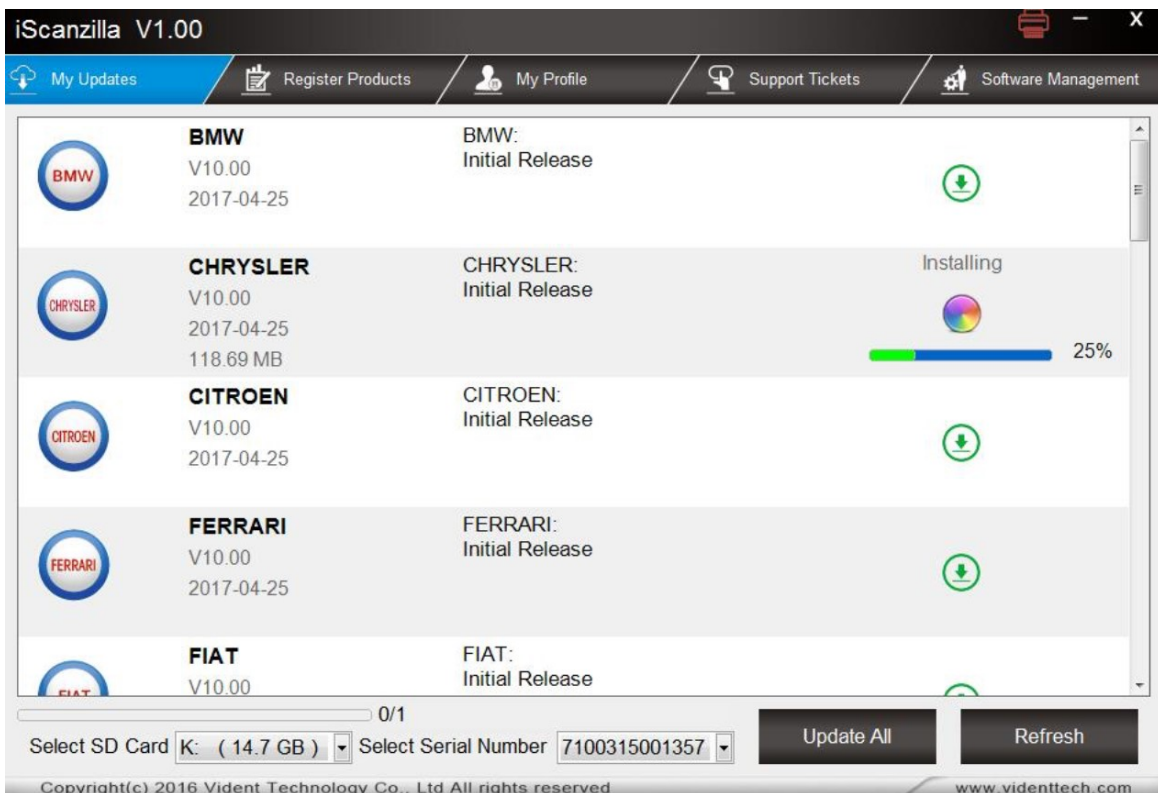

4. Once the software installed, you can go to Software Management to review the installed software.
